gitujan 7b17bfd26b gitujan 15 Feb at 12:10 pm. I can work on git rebase and git rm and I can work on git commit and I don't get any errors, but when I try to remove the commit I don't know why it doesn't work. I've already deleted files so many times and I don't get any errors. I'm using macOS Sierra 10.12.3 but I've read about git rm and git rebase but I don't know how, I'm not very good at it. How can I remove commits? Thanks for the help. EDIT I ~~removed~~ all files and worked with git rmdir for now.
