You need to confirm your Model and your price group to receive the right display settings. To do this, you will be asked to provide your model and your price group. OPPO A5 2020 CPH1933 (Download Tool) Leather Moto Headphones has a sleek look and a soft-feeling ear pads, making it a perfect pair for you to wear to the gym, while listening to music, and to be used as a head phone for your smartphone. It even fits your face-shape The nylon and lycra straps offers adjustable length to fit different head sizes and there is a clear plastic case that protects your iPhoneproduct and you can take it anywhere without a worry. NOTE: Headphones is a simple electronic device, function may vary. Requires a USB-Charger or similar available on a retailer's site for full functionality. WARNING: MAY LEAD TO INJURY, KEEP AWAY FROM EYES, IRRITATION FROM INSECTS AND POISONOUS MUSHROOM. Read the entire product label as well as the label on the device for additional informationQ: how to access web api from another location in asp.net core 2.1 I have a asp.net core Web API and I would like to access it in my Android App. As I understand I need to create an Android project and reference it to the Web API project. Both projects are on the same solution and my Web API project has API controller within a ApiController. I have my Android App working and I can see it from the browser but I would like to access my Web API from the Android App as well. I know I need to specify port number but I do not know how to specify the port and don't know how to reference the API project in the Android project because it is not in the solution of the Android project. What is the best approach in terms of connecting to my Web API from Android App? A: If you are using the default Default

Official Oppo A5 (2020) CPH1933 Stock Rom

* Flash tool is designed to help our users in updating the firmware, and it has no intention to harm your device.
