Design Philosophy

The game was developed by TT Fusion Company, following a philosophy based on a direct connection between game delivery and the game designer. We believe that games should be delivered directly to the player in order to create a sense of gaming delight. We have tried to achieve the pleasure of playing the game as the developer by developing a game where the characters and enemies can be discovered with your own knowledge and the weapons and equipment used in the game can be customized

as the developer wants.

Features of the Graphical Engine

The graphics engine adopted in Tarnished is the latest one developed by TT Fusion. This engine combines an anime-style 2D character model and a CGI-like effect, to deliver an extremely realistic and vivid visual sensation. Adding a world-famous mobile game UI interface to the animation style, and making all the graphics intuitive and fun.
