It is a third-person city that consists of beaches, industrial zones, warehouses and other other areas. The city is a representation of Miami, Florida. The city has a open world design and a huge open area which can be driven through by either a car, bike, on foot. Many areas of the city are made up of a collection of smaller islands that can be reached by bridge. This game has a huge number of options available to it which can be accessed through a combination of in game button and the keyboard. The game world is set up so that the city can be traversed without the aid of a map. The city is full of freeways and three-dimensional paths which can be driven through by car, bike, and on foot. Five different modes are available to the player including: storyline, free roam, minigames, racing and combat. There are many story missions which the player takes part in which usually end in gunfights or chases. Free roam mode allows the players to drive around the city and engage in a variety of activities such as towing cars, shooting people, robbing banks, or collecting rare documents. The minigames mode provides many different video and board games such as darts, guitar, bridge, etc.
