KEYMACRO (Key Macro for Windows) is a tool that enables you to create Macros for your keyboard, which are reusable and automated sequences of keys that are executed with a single key. Let's say that you often type the same letter on the keyboard, like "e". Key Macro helps to automate this and use that key in a program or the time you are writing your password. KEYMACRO allows you to automate sequences of keys on the keyboard. Using KeyMacro is just a matter of creating a Macros with a sequence of keys, and all those Macros will be available in the Macro menu. KEYMACRO is not an advanced tool, but it is simple and easy to use. What makes KeyMacro different from other applications, is that the entire set of macros can be saved, and saved again and again, and from any computer, in a single file that you can import to the computers. One of the cool things about KeyMacro is that you can import keys from any language, such as the following: Microsoft: windows iphone makosx • KeyMacro is available in two editions: Standard and Professional. If you purchase the Standard edition, you are free to use KeyMacro only for home use. If you choose the Professional edition, you can use it in all your computers, without limitations. The Standard edition includes the following features: • KeyMacro menu • Creation of shortcuts • Exports Macros from your keyboard • Stored on your computer, from any place. • Imports macros to the keymap. • Macros in the list of key pressing in each application • Keyboard shortcuts. • Supports most of the key that you type. • Full technical support • Updates and new features • Imports Macros from your computer. • The PRO version includes the following features: • Power manager • Time management • Performance monitoring • Macro-based password cracker • Faster keyboard mapping • Password cracker • Improved technical support • Imports key from any language. • Licence key free Keyboard Expert.org has been at the forefront of information technology since the day it launched. In a relatively short period

of time, we have become the leading website for computer keyboard shortcuts, software keyboards, keyboard templates and related topics. Our blog has been designed to share ideas and information with our community of loyal 2edc1e01e8
